48 YEARS

To: Potential Business/Professional Affiliates

Membership Campaign 2020

Do you realize how important your business is to the citizens living around the lakes of this county? You, as a business, have brought your establishments directly up to support the growth one observes when driving around our beautiful county. It is amazing how businesses and the people have grown together to provide a lifestyle we all enjoy so much.

Or not-for-profit organization has worked hard to encourage the protection of the waters during the past 47 years. Many of you have joined us in this progress. Attached you will find a centerfold of business and professional supporters of our work which was printed in our two publications of 2019, the Bobber Watchin’ and the Soundings. We ask you to consider helping us again by supporting our work.

For a small fee of $40.00, you can have your name published in our two publications upcoming in 2020. These publications are mailed to over 7300 lake property owners who take notice of your participation to preserve the waters of the county. These folks provide the influx of buyers for your business and services which you receive each summer. More and more of these property owners are becoming full time residents of the county.

Please help us by filling out and returning the enclosed membership form along with your $40.00 contribution. Thank you for assisting us in this work.

Respectfully yours,

Cheri Carpenter
Cheri Carpenter, Office Manager
