Compost Lot Drop-Off Guidelines/Definitions

Vegetative Matter - means any yard or landscaping waste, including leaves, grass, brush, limbs, and branches resulting from residential, commercial, industrial, and agricultural operations or from community activities.

Contaminated Loads - means brush and leaves mixed together containing a preponderance of leaves; loads containing bags of vegetative matter exceeding five (5) percent of the load by volume; inert material such as soil, gravel, bricks, concrete, asphalt, or building materials; waste wood, and pallets either alone or in combination with vegetative matter; and any mixed municipal solid waste of any percent in a load of vegetative matter.

Compost - means the product produced by the composting of vegetative matter and other types of organic material in a relatively stable form.

Composting - as used by these rules means the controlled biological decomposition of the organic component of vegetative matter and other types of organic material.

Contractor - means any person, group, or organization engaged in any activity resulting in the generation of vegetative matter who regularly offers themselves for hire or has been hired or compensated for the work.

Contractor Tipping Fee - \$20.00 per load any size.

NISWMD - means the Northeast Indiana Solid Waste Management District. (260) 587-3063

Use of Facility - means residents, companies, and organizations have paid all fees required, read, and complied with facility use rules, and may bring vegetative matter to the site where registered, during public use hours or those hours specifically authorized by this rule.
